

REMEMBER TO EXERCISE YOUR BRAIN EVERY DAY!!

Jane, Tobi's Mom, wanted to have a really fun birthday party for her son. She was looking online for something fun for his birthday party, when her computer froze up! She looked at her watch and YIKES! it was time to go pick up Tobi from day camp. "Mom, guess what?!", Tobi bubbled as he got in the car, "Petunia the Clown played water balloon baseball with us today! It was so fun! I hit the ball and it broke! I made water spray everywhere!! Then, I ran the bases! There was another clown there and she kept throwing water balloons at me, but she couldn't get me out!"

That SAME day at the SAME time, Queen Laugh-a-lot and another clown were at a pizza parlor painting faces. They had been there 2 hours when a couple of Tobi's friends from the day camp, Maggie & Ben, showed up. Not only did they get pizza, but one got a tiger and the other one got a butterfly that glittered! They were so excited that they called all their friends and relatives to tell them! No one believed that they really got a tiger and a sparkly butterfly from a restaurant! "Well, you should believe us!", they giggled. "There are two clowns here!" That night Maggie & Ben went to a family reunion, where their Grandma was turning 80 years old! Maggie volunteered to be changed into a cow! Bubbles the Clown was doing a comedy show. She was trying to bake a cake, but didn't have any milk! So.....

Tobi's parents surprised him by going to a festival at a park that SAME day where there was good food and lots of fun things to do. As they were waiting in line to order some dinner, they kept seeing people wearing funny balloon hats walk by. Then, they saw people carrying dogs, giraffes, flowers, and parrots walking by! Tobi asked a little girl wearing a lady bug bracelet where she got her bracelet from. "Nuts & Bolts!", she chimed! "This is the second time that I've seen her today! She was on the grass in front of the Art & History Museum early this morning and played parachute games with me."

QUESTIONS: Which clown was playing water balloon baseball with Petunia the Clown? _____

Which clown was at the pizza parlor with Queen Laugh-a-lot? _____

Clues & Other Nonsense: The games that Clown Connection, LLP clowns might play include relay games, parachute games, and water balloon baseball. The day that Jane's computer froze up while looking for birthday party ideas, Nuts & Bolts ONLY played games and made balloon sculptures. Despite the clowns' magical abilities, no clown was at 2 events at the same time! Petunia the Clown was at only one event on the day Jane's computer froze up. Queen Laugh-a-lot and Bubbles did not play any games or make any balloon sculptures that day. Both Bubbles and Nuts & Bolts went to 2 events that day. Queen Laugh-a-lot loves to face paint! Petunia loves to plant flowers! And sometimes stories like this are mind-boggling!

Clown Connection, LLP Balloon Policy: For safety reasons, we do not make balloon sculptures for children under 3 years of age; however, we will make balloon sculptures for the parents/guardians of children at their request. All children with balloons need to be watched to make sure that they do not "chew" on the balloon or pop it with their mouth. Balloons are NOT teething toys! Injury or death can result. THIS IS A SERIOUS MATTER!

Clown Connection, LLP Face Paints: The face paints used by Clown Connection, LLP are water based hypo-allergenic professional paints designed especially for use on faces. Paint washes off easily with soap and water. The manufacturer does NOT recommend them for children under the age of 3 years old.
